

# Replacement Power Supply

## Description:

Superior Technical Services has developed a replacement for the OEM +5V - PE4114 and +/- 15V - PE4121 power supplies in your FEI/Philips XL based microscopes. Engineered to be a user installed replacement for the high failure OEM supplies. At one third the cost and longer life this STS supply is the obvious choice for replacing failed 5 and/or 15V supplies in your SEM, FIB, or Dual Beam equipment.

---

## Specs:

- \* Input: 100-240V, 4.2A, 50/60Hz
